### Garden Activity: Visiting the Water Saver Garden

You've learned how plants use water to grow. The plants in this garden need little to stay healthy.

Put an "X" in the "yes" box if you find these plants in this water saving garden.

**Firebush**

Yes  No

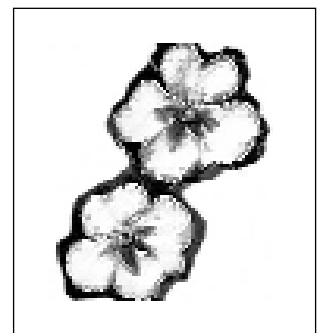

**Butterfly Bush**

Yes  No

**Hibiscus**

Yes  No

**Impatiens**

Yes  No

# Garden Activity: Describing Water

Water has no shape of its own, so it can be in many places.

Tour the gardens and use your senses to describe the water you find.

## At the fountain plaza:

What do your ears hear? Write three descriptive words or draw a picture of what you hear here:

## At the Kumamoto En Garden:

What does your skin feel? Write three descriptive words or draw a picture of what you feel here:

## At the fern grotto:

What does your nose smell? Write three descriptive words or a picture of what you smell here:

## At the drinking water fountain:

What does your mouth taste? Write three descriptive words or draw a picture of what you taste here:
