

SAN ANTONIO BOTANICAL GARDEN

NOTHING IS MORE RESILIENT THAN NATURE.

And now more than ever, our community needs nature and resiliency for recovery and wellness.

As a living museum of nature and plants, the Botanical Garden faced dramatic change that impacted every aspect of our operations and programs during the COVID-19 crisis. In response, the Botanical Garden leaned into nature's example of recovery and regrowth—adapting to change and creating innovative ways to serve the community's overwhelming need for nature, despite our financial challenges. With safety guidelines in place, the Botanical Garden was the first cultural institution to reopen in San Antonio after a temporary closure, and a thankful community quickly returned to enjoy the botanic beauty and open spaces they so desperately needed after months of confinement.

The garden needs your support more than ever. We hope we can count on you!

As we continue to serve children, families and individuals of all ages in our community, we request your partnership in this journey with your annual fund contribution before our fiscal year closes on December 31. Your gift will help keep ever-growing minds engaged through STEM-based learning programs, and provide healthy outdoor play, family-friendly activities, novel adult learning, wellness programs, and much more. Your contribution to the Botanical Garden will have an even larger impact thanks to a \$10,000 2020 Annual Appeal matching gift pledge from a generous friend of the Botanical Garden.

With your charitable gift, you will help the Botanical Garden continue the tradition of making cherished memories for you, your family, and the entire community. Thank you for continuing to support us with an annual gift and ensuring the bright future of the Botanical Garden and the wonderful community we serve.

With gratitude,

Sabina Carr

Chief Executive Officer

PS: Remember, your gift will double its impact thanks to the matching gift of \$10,000!
